

It's not just for kids!

While the **Environmental Science Education Center** at Horn Point Lab is a perfect school group venue for environmental education programs, the facilities and grounds offer a **relaxed setting in nature for adults**, for day and/or overnight activities such as:

- photography club weekend
- natural resource management education
- corporate team building event
- government or civic association meeting
- yoga retreat
- nature group weekend
- non-profit fund-raising event
- 'girls' camping getaway
- scout master training
- company holiday party
- ...and much more!

Book the Environmental Science Education Center for your next social event or group meeting

The Environmental Science Education Center is another world altogether...
